

ICAC 2017

International Conference on Aerosol Cycle
Sources – Aging – Sinks – Impacts

March 21-23, 2017

LILLIAD - Learning center
Innovation, University of Lille
Villeneuve d'Ascq (France)

© Atmosphère Studio

sponsored by:

Deadline for abstracts submission
(contributed talks and posters)

extended until
January 27th 2017

5 SESSIONS

with the following plenary speakers:

Session 1 Observation

Paolo LAJ

Laboratoire de Glaciologie et Géophysique de l'Environnement (LGGE),
Université Grenoble-Alpes, Grenoble, France

Olga V. KALASHNIKOVA

NASA Jet Propulsion Laboratory, California Institute of Technology,
Pasadena, CA, United States of America

Session 2 Modeling

Markku KULMALA

Division of Atmospheric Sciences at the Department of Physics,
University of Helsinki, Finland

Session 3 Physico-chemical properties

Hartmut HERRMANN

Atmospheric Chemistry Department, Leibniz Institute for Tropospheric
Research (TROPOS), Leipzig, Germany

Session 4 Reactivity of aerosols and their precursors

Astrid KIENDLER-SCHARR

Institute of Energy and Climate Research, IEK-8: Troposphere,
Forschungszentrum Jülich, Germany

Session 5 Climate and Impacts

A. R. RAVISHANKARA

Departments of Chemistry and Atmospheric Science, Colorado State
University, CO, United States of America
